

The Apostolic MOTORCYCLE MINISTRY of Jesus Christ

Azusa StreetRiders has a goal to help further the apostles doctrine by providing motorcycles to missionaries on foreign fields. In many countries, the best and sometimes only means of reaching certain people with the gospel of Jesus Christ is to ride a two-wheeled vehicle to remote locations or in heavily congested traffic areas where cars can only move at a snails pace. To us, the dedicated missionaries who use two-wheeled transportation are truly brothers in arms. To this end, Azusa StreetRiders has a goal to purchase as many motorcycles or motor scooters as possible each year and place them in the capable hands of foreign missionaries to use in their work. We've set up a special account and are funding it through local fundraising events. We collect the funds every year in our missions service at our Azusa StreetRiders National Rally from every chapter within the local oneness apostolic churches. Donations can also be made throughout the year on our azusastreetriders.com website.
